

Fixed Retainer Care

- Please be careful with what you bite into and how you chew.
- Check your new bonded retainer daily.
- Make sure your bonded retainer is not broken or loose on any side.
- If you find that your bonded retainer breaks or comes loose on any side, Please contact our office immediately so we can repair or replace the retainer.
- Please be advised if the space opens or teeth shift, it may be necessary to re-treat with orthodontics and there will be additional fees.
